DANCE FLOOR SIZING GUIDE

-We generally figure that one couple or two people will fit on a 4' x 4' square piece of dance floor. The amount of people dancing during an event will vary with each event but typically about 1/4 of your guests will dance at any given time. A quick way to arrive at a 'ballpark' dance floor size for your party is to double your guest count (which equals 2 square feet per guest) and then pick a size that fits your available space! **Dance Floor is priced at \$1.65 per sq. ft.**
